Subject index

Adenylate cyclase,
adrenergic receptive receptors, alpha$_2$-receptors, ciliary processes rabbit, glaucoma 287
Adrenergic receptors,
alpha$_2$-receptors, adenylate cyclase, glaucoma, rabbit ciliary processes 287
β-adrenergic blockers,
soft drugs, site-specific chemical delivery system, glaucoma, antiglaucoma agents, intraocular pressure, rabbit 369
Ageing,
corneal endothelium, cornea, cell density, polymegethism, shape, cat 387
lens proteins, crystallins, tryptophan, fluorescence quenching, acrylamide, iodide, human 403
lens proteins, crystallins, alpha crystallin, alpha neuroprotein, UV light, bovine 1113
lens, lens proteins, crystallins, beta-crystallins, development, polypeptides, human 353
lens, lens proteins, extrinsic membrane proteins, cytoskeleton, proteolysis, antibodies, bovine 1255
lens/lens proteins, crystallins/crystallin distributions, concentric layers, development, bovine 11
rat lens, sex differences, enzymes:LDH, MDH, ALD, SDH, G-6-PDH, PK, PFK, HK 449
Alkali burn,
wound healing, epithelial regeneration, cornea, corneal fibroblasts, cytochrome oxidase, histochemistry, rabbits 131
Amino acid,
amino acid metabolism, cornea, rabbit, nuclear magnetic resonance spectroscopy 253
Anaesthetics,
preservatives, cornea, corneal epithelium, epithelial permeability, fluorophotometry, human 947
Anaphylaxis,
mast cell, conjunctiva, desensitization, dinitrophenylated, *Ascaris suum*, rat 843
topically induced, late-phase reaction, rat, *Ascaris suum* 437
Anterior chamber,
perfusion, aqueous humour dynamics, outflow facility, outflow resistance washout, trabecular meshwork, *Macaca fascicularis*:monkey 721
retinal S-antigen, immune deviation, experimental autoimmune uveitis, uveitis, inflammation, soluble antigens, Lewis rats 627
Anterior segment,
cornea, conjunctiva, conjunctival:corneal ratio, surface area, rabbit, human 483
Antibodies,
cell-mediated immunity, preservatives, thimerosal, merthiolate, mercury, contact lenses, hypersensitivity, rabbit 341
S-antigen,
see retinal S-antigen 393
Antigens,
HLA DR/HLA DQ, choroid, retina, ciliary processes, cornea, conjunctiva, human 903
Antiglaucoma agents,
glaucoma, intraocular pressure, site-specific chemical delivery system, soft drugs, β-adrenergic blockers, rabbit 369
Aqueous humour,
coagulation, procoagulation, recalcification time 819
glaucoma, aqueous outflow, trabecular meshwork, phagocytosis, immunofluorescence, cynomolgus monkey 445
vitreous, lens, ascorbic acid, diet, guinea pig 681
Aqueous humour dynamics,
anterior chamber perfusion, outflow facility, outflow resistance washout, trabecular meshwork, *Macaca fascicularis*:monkey 721
outflow facility, trabecular meshwork, glaucoma, organ culture, bovine 799
Arachidonic acid,
polyunsaturated fatty acids, keratitis, inflammation, cornea, corneal neovascularization, corneal oedema, leukocyte infiltration 549
prostaglandins, leukotrienes, blood aqueous barrier, herpes simplex virus, inflammation, cornea, rabbit 1131
Ascorbic acid,
ascorbate peroxidase, retinal pigment epithelium, choroid 675
vitamin C, aqueous humour, vitreous, lens, diet, guinea pig 681
Avian eye,
formoguanamine, blindness, lid suture, myopia, chick 69

Blood aqueous barrier,
arachidonic acid, prostaglandins, leukotrienes, herpes simplex virus, inflammation, cornea, rabbit 1131
blood flow, intraocular pressure, ocular irritation, CGRP, neurogenic/contralateral response, pupil diameter, rabbit 695
ocular irritation, intraocular pressure, pupil diameter, iris-ciliary body, substance P, calcitonin gene-related polypeptide (CGRP), rat 761
uveitis, prostaglandins, phosphodiesterase inhibitor, inflammation, 3-isobutyl-methyl-xanthine, leukocyte, rabbit 557
Blood flow,
intraocular pressure, blood aqueous barrier, ocular irritation, CGRP, neurogenic/contralateral response, pupil diameter, rabbit 695
Blood supply,
long posterior ciliary artery. vascular sensitivity, prostaglandins, norepinephrine, bunazosin, diltiazem 457
ophthalmic arteries, arterial perfusion method, periarterial electrical stimulation, vascular responsiveness, norepinephrine, ocular pharmacology, canine 607
Blood-retinal barrier,
fluorescein, carboxyfluorescein, urinary excretion, streptozotocin diabetes, rat 981
Body inversion,
oscillatory potentials, intraocular pressure, perfusion pressure, autoregulation, human 1221
Bolometry,
temperature, inflammation, conjunctivitus, conjunctiva, bulbar conjunctiva, conjunctival hyperemia 615
Bruch's membrane,
neural pigment epithelium, subretinal vitreous, pathology of drusen, rabbit 581
Bunazosin,
diltiazem, norepinephrine, prostaglandins, long posterior ciliary artery, blood supply, vascular sensitivity 457

Calcium-ATPase,
hydrogen peroxide, oxidative damage, sodium-potassium ATPase, electrolytes, membrane transport and permeability, lens, rabbit 969
Cataract,
anti-cataract drugs, natural history of cataracts, lens, Scheimpflug Camera, reproducibility, human 955
galactose cataract, galactosemic, lens, freezable water/non-freezable water, rat 771
glucocorticoid, pigmentation, lens, corticosteroids, glucose, Maillard reaction, chick embryo 989
lens, membrane cholesterol, gap junctions, U 18666A, rat 1029
lens, oxidative damage, ultraviolet radiation, hydrogen peroxide, hexokinase, tryptophan, rat, rabbit, bovine 257
lens, photographic documentation, rabbit, human 223
MIP26, selenite, lens, lens proteins, proteolysis, microsequencing/immunoblot, rats 411
Cell-mediated immunity,
antibodies, preservatives, thimerosal, merthiolate, mercury, contact lenses, hypersensitivity, rabbit 341
Chlorpromazine,
retina/retinal pigment epithelium, phototoxicity, light damage 1
Cholesterol,
membrane cholesterol, lens, cataract, gap junctions, U 18666A, rat 1029
Choroid,
retina, ciliary processes, cornea, conjunctiva, antigens, HLA DR/HLA DQ, human 903
Ciliary processes,
adenylate cyclase, adrenergic receptive receptors, alpha$_2$-receptors, glaucoma, rabbit 287
retina, conjunctiva, cornea, choroid, antigens, HLA DR/HLA DQ, human 903

Collagen,
cornea, keratoconus, heterogeneity, Sirius red, safranin O, glycosaminoglycan, human 81
fibronectin, laminin, extracellular matrix, basement membrane, cornea, corneal epithelium, rabbit 293
glycoproteins, cornea, immunochemistry, biosynthesis, bovine 31
vitreous liquefaction, macrophages, ferrous ions, transmission electron microscopy, rabbit 655
Collagenase,
fibroblasts, cornea, pneumolysin, rabbit 951
Conjunctiva,
conjunctivitus, bulbar conjunctiva, conjunctival hyperaemia, inflammation, temperature, bolometry 615
cornea, ciliary processes, retina, choroid, antigens, HLA DR/HLA DQ, human 903
cornea, conjunctival:corneal ratio, anterior segment, surface area, rabbit, human 483
desensitization, dinitrophenylated, mast cell, anaphylaxis, *Ascaris suum*, rat 843
Contact lenses,
cornea, corneal epithelium, epithelial permeability, fluorophotometry, fluorescein, human 511
deposits, immunocytochemistry, transmission electron microscopy 277
hydrogel lens, topographical, corneal oedema, tears, tear mixing, lactic acid, human 601
preservatives, thimerosal, merthiolate, mercury, cell-mediated immunity, antibodies, hypersensitivity, rabbit 341
rigid gas-permeable lenses, hydrogel contact lenses, physiological performance, extended wear, cornea, deswelling rates 49
soft contact lenses, visual acuity, contrast sensitivity, luminance, spectacles 635
Contrast sensitivity,
visual acuity, luminance, contact lenses/soft contact lenses, spectacles 635
Cornea,
blood aqueous barrier, arachidonic acid, prostaglandins, leukotrienes, herpes simplex virus, inflammation, rabbit 1131
conjunctiva, ciliary processes, retina, choroid, antigens, HLA DR/HLA DQ, human 903
conjunctiva, conjunctival:corneal ratio, anterior segment, surface area, rabbit. human 483
corneal endothelium, ultraviolet radiation, polymegethism, pleomorphism, solar radiation 157
corneal endothelium, ageing, cell density, polymegethism, shape, cat 387
corneal endothelium, morphology, morphogenesis, electron microscopy, rabbit 913
corneal epithelium, anaesthetics, preservatives, epithelial permeability, fluorophotometry, human 947
corneal epithelium, epithelial permeability, contact lenses, fluorophotometry, fluorescein, human 511
corneal epithelium, fibronectin, laminin, collagen, extracellular matrix, basement membrane, rabbit 293
corneal epithelium, GTP, polyphosphoinositides, norepinephrine, 5-hydroxytryptamine, sodium fluoride, bovine 487
corneal epithelium, membrane transcript/permeability, membrane voltage, intracellular pH, K^+ conductance; Na^+/H^+ exchange, tissue culture 619
corneal fibroblasts, cytochrome oxidase, histochemistry, alkali burn, wound healing, epithelial regeneration, rabbits 131
corneal neovascularization/oedema, leukocyte infiltration, non-steroidal anti inflammatory drugs, keratitis, lypoxygenase inhibitors, cyclo-oxygenase inhibitors, rabbit 361
corneal nerves, herpes simplex virus, HSV-1, reactivation, iontophoresis, intra-axonal transport, rabbit 1001
corneal preservation, corneal hydration, collagen biosynthesis, organ culture, electron microscopy, rabbit 303
deswelling rates, contact lenses, rigid gas-permeable lenses, hydrogel contact lenses, physiological performance, extended wear 49
fetal development, intermediate filaments, vimentin, monoclonal antibodies, fibroblasts, cytoskeleton, rabbit 937
fibroblasts, collagenase, pneumolysin, rabbit 951
glycoproteins, collagen Type VI, immunochemistry, biosynthesis, bovine 31
herpes simplex virus, herpetic keratitis, IgG, inbred mice 823
infection, tears, herpes simplex virus, immunoglobulin A, antibody, ELISA, rabbit 313
keratitis, corneal neovascularization, corneal oedema, leukocyte infiltration, arachidonic acid, inflammation, polyunsaturated fatty acids 549
keratoconus, heterogeneity, collagen, Sirius red, glycosaminoglycan, safranin O, human 81
rabbit, amino acid metabolism, nuclear magnetic resonance spectroscopy 253
sensory nerves, herpes simplex virus, HSV-1, geographic lesion, rabbit trigeminal nerve 147
Corneal endothelium,
cornea, ageing, cell density, polymegethism, shape, cat 387
cornea, morphology, morphogenesis, electron microscopy, rabbit 913
cornea, ultraviolet radiation, polymegethism, pleomorphism, solar radiation 157
Corneal epithelium,
cornea. anaesthetics, preservatives, epithelial permeability, fluorophotometry, human 947
cornea, epithelial permeability, contact lenses, fluorophotometry, fluorescein, human 511
cornea, GTP, polyphosphoinositides, norepinephrine, 5-hydroxytryptamine, sodium fluoride, bovine 487
cornea, membrane transcript/permeability, membrane voltage, intracellular pH, K^+ conductance; Na^+/H^+ exchange, tissue culture 619
Corneal neovascularization,
corneal oedema, cornea, leukocyte infiltration, arachidonic acid, keratitis, polyunsaturated fatty acids, inflammation 549
Corneal oedema,
corneal neovascularization, cornea, leukocyte infiltration, arachidonic acid, keratitis, polyunsaturated fatty acids, inflammation 549
tears, tear mixing, contact lens, hydrogel lens, topographical, lactic acid, human 601
Corneal preservation,
cornea, corneal hydration, collagen biosynthesis, organ culture, electron microscopy, rabbit 303
Corticosteroids,
glucocorticoid, lens, cataract, pigmentation, glucose, Maillard reaction, chick embryo 989
Crystallins,
beta-crystallins, lens, lens proteins, ageing, development, polypeptides, human 353
α_c-crystallin/α_m-crystallin, lens proteins, polydispersity, molecular weight, bovine 563
crystallin distributions, lens/lens proteins, ageing, concentric layers, development, bovine 11
gamma-crystallin, lens, lens proteins size and shape, electron microscopy, bovine 25
lens proteins, alpha crystallin, alpha neuroprotein, ageing, UV light, bovine 1113
lens proteins, subunit structure, amino acid composition, charge heterogeneity, sequence homology, gibbon/deer/marmot 1017
lens, fluorescence quenching, acrylamide, iodide, bovine 237
lens, lens proteins, electrophoretic analysis, amino acid analysis, camel, rabbit 871
lens, lens proteins, genes, transcription, chicken 331
tryptophan, fluorescence quenching, acrylamide, iodide, lens proteins, ageing, human 403
β crystallin, lens proteins, lens epithelium, glutathione−insulin transhydrogenase, rat 861
γ crystallin, lens, nuclear magnetic resonance, ionization, electrostatic/ring-current calculations, X-ray analysis, bovine 777
γ-crystallin,
crystallins, lens, lens proteins size and shape, electron microscopy, bovine 25
lens, lens proteins, photooxidation, hydrogen peroxide, fluorescence, circular dichroism, oxidative damage 571

structure, fluorescence spectroscopy, quenching, lens, lens proteins, acrylamide, bovine 55
Cyanogen bromide,
interphotoreceptor retinoid-binding protein, retina-specific antigen, retina, experimental autoimmune uveitis, amino-terminal sequencing, protein fragmentation Lewis rat, 375
Cyclic AMP,
trabecular meshwork, agonists, monkey 75
Cyclo-oxygenase inhibitors,
lypoxygenase inhibitors, keratitis, cornea, corneal neovascularization/oedema, non-steroidal anti inflammatory drug: leukocyte infiltration, rabbit 361
Cytochemistry,
hydrogen peroxide, inflammation, oxidative damage, electron microscopy, rat 931
Cytochrome oxidase,
histochemistry, alkali burn, wound healing, epithelial regeneration, cornea, corneal fibroblasts, rabbits 131
Cytoskeleton,
immunogold-EM, actin, vimentin, filaments, polygonal arrays, lens epithelium 705
intermediate filaments, fibroblasts, vimentin, fetal development, cornea, monoclonal antibodies, rabbit 937
lens conductance, membrane permeability and transport, fodrin, oxidative damage, rat 747
lens, lens proteins, ageing, extrinsic membrane proteins, proteolysis, antibodies, bovine 1255
lens, lens proteins, extrinsic membrane proteins, antibodies, bovine 1243

Diabetes,
streptozotocin, blood-retinal barrier, fluorescein, carboxyfluorescein, urinary excretion, rat 981
Diltiazem,
bunazosin, norepinephrine, prostaglandins, long posterior ciliary artery, blood supply, vascular sensitivity 457
Drug metabolism,
drug reduction, drug metabolism, iris-ciliary body, microsomes, cytosol, bovine 1069
Drug penetration,
cefotaxime, cephalosporins, topical application, subconjunctival application, ocular pharmacokinetics/pharmacology, rabbit 1149
Drusen,
pathology of drusen, subretinal vitreous, neural pigment epithelium, rabbit 581
Dry eye,
lacrimation, tears, Schirmer test, topical anaesthesia, kinetic parameters, comparison of dry and normal eyes 419

Elastase inhibitors,
vitreous, aorta, bovine 95
Elastin,
pseudoexfoliation syndrome, tropoelastin, zonules, immunoelectron microscopy, human 1163
Electron microscopy,
electroretinogram, hereditary tapetal degeneration, *tapetum lucidum*, retinal pigment epithelium, zinc, melamin, beagle 103
hereditary tapetal degeneration, *tapetum lucidum*, retinal pigment epithelium, melanin, melanosomes, uvea, dog 115
lens/lens proteins, crystallins/gamma-crystallin, lens proteins size and shape, bovine 25
Electroretinography,
ocular hypertension, retinal ganglion cells, glaucoma, primary open-angle glaucoma, risk factors 201
zinc, *tapetum lucidum*, hereditary tapetal degeneration, retinal pigment epithelium, electron microscopy, melamin, beagle 103
Epiretinal membranes,
retinal detachment, retina, fibroblasts, inflammation, endotoxin, glial cells, cell proliferation 877
Experimental autoimmune uveitis,
autoimmune disease, inflammation, S-antigen, anti-Ia, MHC class II antigens, RPE, rat 809
autoimmunity, S-antigen, monoclonal antibodies, immunoblots, peptides, epitopes, bovine 1137
retinal S-antigen, peptide M, synthetic peptides, T-cell response, guinea pig 87
S-antigen, monoclonal antibodies, peptides, human 1077
S-antigen, monoclonal antibodies, T cells/B cells, MHC class II antigens, inflammation, guinea pig 1231
uveitis, inflammation, soluble antigens, retinal S antigen, anterior chamber, immune deviation, Lewis rats 627
uveitis, S-antigen, antibody, immunoblotting, T_h cells, epitopes, cyanogen bromide, rats 181
uveitopathogenic sites, interphotoreceptor retinoid binding protein (IRBP), synthetic peptide, human 1087
Experimental autoimmune uveoretinitis,
uveitis, experimental autoimmune pinealitis, interphotoreceptor retinoid-binding protein, synthetic peptides, immunopathogenic, amphipathicity, 727
uveitis, S-antigen, cyanogen bromide, immunoblotting, rats 191

Ferrous ions,
collagen fibrils, vitreous liquefaction, macrophages, transmission electron microscopy, rabbit 655
Fibrinogen,
inflammation, mycobacterial-induced murine eye granuloma, mouse 1207
Fibroblasts,
cell proliferation, inflammation, endotoxin, glial cells, retina, epiretinal membranes, retinal detachment 877
cornea, collagenase, pneumolysin, rabbit 951
intermediate filaments, vimentin, fetal development, cytoskeleton, cornea, monoclonal antibodies, rabbit 937
Fibronectin,
laminin, collagen, extracellular matrix, basement membrane, cornea, corneal epithelium, rabbit 293
Fluorescein,
carboxyfluorescein, urinary excretion, blood-retinal barrier, streptozotocin diabetes, rat 981
fluorophotometry, contact lenses, cornea, corneal epithelium, epithelial permeability, human 511
Fluorescence spectroscopy,
acrylamide, iodide, lens proteins, crystallins, tryptophan, ageing, human 403
quenching, lens, lens proteins, gamma-crystallins, structure, acrylamide, bovine 55
solid-surface fluorescence, lens insoluble proteins, protein conformation 61
Fluorophotometry,
anaesthetics, preservatives, epithelial permeability, cornea, corneal epithelium, human 947
fluorescein, contact lenses, cornea, corneal epithelium, epithelial permeability, human 511
fluorescein, tear turnover rate, Schirmer, human 995
Fodrin,
membrane permeability and transport, lens conductance, cytoskeleton, oxidative damage, rat 747
Forskolin,
intraocular pressure, glaucoma, ocular pigment, melanin-binding, α-chymotrypsin, rabbit 667

Galactose cataract,
cataract, galactosemic, lens, freezable water/non-freezable water, rat 771
Genetics,
resistance, retinitis, anterior chamber-associated immune deviation, herpes simplex virus, HSV-1, mouse 125
Glaucoma,
adrenergic receptive receptors, alpha$_2$-receptors, adenylate cyclase, rabbit ciliary processes 287
antiglaucoma agents, intraocular pressure, site-specific chemical delivery system, soft drugs, β-adrenergic blockers, rabbit 369
aqueous humour, aqueous outflow, trabecular meshwork, phagocytosis, immunofluorescence, cynomolgus monkey 445

intraocular pressure, melatonin, sympathetic nervous system, diurnal rhythm, human 649
intraocular pressure, receptors, timolol, prodrug, heart rate, rabbit 755
melanin-binding, forskolin, intraocular pressure, glaucoma, α-chymotrypsin, rabbit 667
ocular hypertension, retina, image analysis, computerized densitometry, red-free photography, visual field 789
outflow facility, trabecular meshwork, aqueous humour dynamics, organ culture, bovine 799
primary open-angle glaucoma, risk factors, ocular hypertension, electroretinography, retinal ganglion cells 201

Glucocorticoid,
corticosteroids, lens, cataract, pigmentation, glucose, Maillard reaction, chick embryo 989

Glutathione,
glutathione–insulin transhydrogenase, lens proteins, lens epithelium, crystallins, β crystallin, rat 861

Glutathione peroxidase,
distribution in ocular tissue, immunohistochemistry, antioxidants, oxidative damage, oxygen free radicals, rat 1023

Glycoproteins,
collagen Type VI, cornea, immunochemistry, biosynthesis, bovine 31

Glycosaminoglycan,
safranin O, cornea, collagen, keratoconus, heterogeneity, Sirius red, human 81

Granuloma,
mycobacterial-induced murine eye granuloma, fibrinogen, inflammation, mouse 1207

Herpes simplex virus,
herpetic keratitis, cornea, IgG, inbred mice 823
HSV-1, cornea, sensory nerves, geographic lesion, rabbit trigeminal nerve 147
HSV-1, corneal nerves, reactivation, iontophoresis, intra-axonal transport, rabbit 1001
HSV-1, retinitis, anterior chamber-associated immune deviation, genetics, resistance, mouse 125
immunoglobulin A, tears, cornea, infection, antibody, ELISA, rabbit 313
inflammation, cornea, blood aqueous barrier, arachidonic acid, prostaglandins, leukotrienes, rabbit 1131
latency, keratitis, immunology, immunomodulation, mouse 1043
latency, keratitis, immunology, immunomodulation, glycoprotein D, mouse 1051
latency, reactivation, keratitis, trigeminal ganglion, mouse 1155
ocular disease, EIA, rapid diagnostic test, clinical study, HERPCHEK™, human 661

Histochemistry,
cytochrome oxidase, alkali burn, wound healing, epithelial regeneration, cornea, corneal fibroblasts, rabbits 131

Human chorionic gonadotrophin,
hCG beta-subunit, luteinizing hormone, intravitreal injection, intraocular pressure, rabbit 1035

Hydrogen peroxide,
Ca-ATPase, oxidative damage, membrane transport and permeability, sodium-potassium ATPase, electrolytes, lens, rabbit 969
cytochemistry, inflammation, oxidative damage, electron microscopy, rat 931
hexokinase, tryptophan, ultraviolet radiation, oxidative damage, lens, cataract, rat, rabbit, bovine 257
photooxidation, γ-crystallin, lens, lens proteins, fluorescence, circular dichroism, oxidative damage 571

Image analysis,
glaucoma, ocular hypertension, retina, visual field, computerized densitometry, red-free photography 789

Immunoglobulins,
IgA, herpes simplex virus, tears, cornea, infection, antibody, ELISA, rabbit 313
IgG, herpes simplex virus, herpetic keratitis, cornea, inbred mice 823
immunology, immune responses, secretory antibody, tears, rats 471
immunology, immune complexes/immunoglobulin aggregate, immunofluorescence, espicleral capilliary plexus, Fc receptor, scleritis/mast cell, mouse eye 593

Immune deviation,
retinal S-antigen, anterior chamber, experimental autoimmune uveitis, uveitis, inflammation, soluble antigens, Lewis rats 627

Immunochemistry,
biosynthesis, collagen Type VI, glycoproteins, cornea, bovine 31

Immunology,
cytoxic T lymphocytes, antibody, complement, intraocular tumour, tumour necrosis factor/rejection, mouse 515
immune responses, secretory antibody, IgG, tears, rats 471
immunoglobulins, immune complexes/immunoglobulin aggregate, immunofluorescence, espicleral capilliary plexus, Fc receptor, scleritis/mast cell, mouse eye 593
immunomodulation, keratitis, herpes simplex virus, latency, mouse 1043
immunomodulation, keratitis, herpes simplex virus, latency, glycoprotein D, mouse 1051

Indomethacin,
prostaglandin, non-steroidal anti-inflammatory drugs, iris-ciliary body, retina, inflammation, aphakia, rabbit 1105

Infection,
cornea, tears, herpes simplex virus, immunoglobulin A, antibody, ELISA, rabbit 313

Inflammation,
cell proliferation, fibroblasts, endotoxin, glial cells, retina, epiretinal membranes, retinal detachment 877
experimental autoimmune uveitis, soluble antigens, immune deviation, anterior chamber, retinal S antigen, Lewis rats 627
experimental autoimmune uveitis, autoimmune disease, S-antigen, anti-Ia, MHC class II antigens, RPE, rat 809
experimental autoimmune uveitis, S-antigen, monoclonal antibodies, T cells/B cells, MHC class II antigens, guinea pig 1231
keratitis, polyunsaturated fatty acids, leukocyte infiltration, arachidonic acid, cornea, corneal neovascularization, cornea 549
mycobacterial-induced murine eye granuloma, fibrinogen, mouse 1207
non-steroidal anti-inflammatory drugs, aphakia, indomethacin, prostaglandin, iris-ciliary body, retina, rabbit 1105
ocular irritation, keratouveitis, capsaicin, neurotoxin, neuropeptides, rat 1173
oxidative damage, hydrogen peroxide, cytochemistry, electron microscopy, rat 931
prostaglandins, non steroidal anti-inflammatory drugs, lens, aqueous humour, endotoxin, flunixin, indomethacin 321
temperature, bolometry, conjunctiva, conjunctivitus, bulbar conjunctiva, conjunctival hyperaemia 615
uveitis, prostaglandins, blood-aqueous barrier, leukocyte, 3-isobutyl-methyl-xanthine, rabbit 557

Interferon,
serum neopterin levels, uveitis, human 497

Interphoreceptor matrix,
retinal degeneration, *rds* gene, chimaera, mouse 1183

Interphotoreceptor retinoid-binding protein,
cyanogen bromide, retina-specific antigen, retina, experimental autoimmune uveitis, amino-terminal sequencing, protein fragmentation, Lewis rat 375
experimental autoimmune uveoretinitis/pinealitis, uveitis, synthetic peptides, immunopathogenic epitopes, amphipathicity, Lewis rats 727
lymphocyte proliferation assay, uveitis, retinal S-antigen, human 393
synthetic peptide, experimental autoimmune uveitis, uveitopathogenic sites, human 1087

Intraocular pressure,
blood flow, blood aqueous barrier, ocular irritation, CGRP, neurogenic/contralateral response, pupil diameter, rabbit 695
body inversion, oscillatory potentials, perfusion pressure, autoregulation, human 1221
glaucoma, antiglaucoma agents, site-specific chemical delivery system, soft drugs, β-adrenergic blockers, rabbit 369
glaucoma, forskolin, ocular pigment, melanin-binding, α-chymotrypsin, rabbit 667
glaucoma, melatonin, sympathetic nervous system, diurnal rhythm, human 649

glaucoma, receptors, timolol, prodrug, heart rate, rabbit 755
human chorionic gonadotrophin, hCG beta-subunit, luteinizing hormone, intravitreal injection, rabbit 1035
luteinizing hormone, luteinizing hormone releasing hormone, follicle stimulating hormone, pituitary gland, rabbit 737
ocular irritation, pupil diameter, blood aqueous barrier, iris-ciliary body, substance P, calcitonin gene-related polypeptide (CGRP), rat 761

Intrinsic membrane protein,
membranes, lens-specific expression, lens proteins, lens, MP17, phosphorylation, calmodulin-binding, monoclonal antibodies 207

Iris-ciliary body,
blood aqueous barrier, pupil diameter, intraocular pressure, ocular irritation, substance P, calcitonin gene-related polypeptide (CGRP), rat 761
choroid plexus, autoradiography, cell turnover, mouse 247
drug reduction, drug metabolism, microsomes, cytosol, bovine 1069
platelet activating factor, specific binding, rabbit 1063
retina, inflammation, aphakia, non-steroidal anti-inflammatory drugs, indomethacin, prostaglandin, rabbit 1105

3-isobutyl-methyl-xanthine (IBMX),
leukocyte, phosphodiesterase inhibitor, prostaglandins, uveitis, inflammation, blood-aqueous barrier, rabbit 557

Keratitis,
cornea, corneal neovascularization, corneal oedema, leukocyte infiltration, arachidonic acid, inflammation, polyunsaturated 549
herpes simplex virus, latency, immunology, immunomodulation, mouse 1043
herpes simplex virus, latency, glycoprotein D, immunology, immunomodulation, mouse 1051
herpes simplex virus, latency, reactivation, trigeminal ganglion, mouse 1155
herpetic keratitis, herpes simplex virus, cornea, IgG, inbred mice 823
lypoxygenase inhibitors, cyclo-oxygenase inhibitors, cornea, corneal neovascularization/oedema, non-steroidal anti inflammatory drugs, leukocyte infiltration, rabbit 361

Keratoconus,
heterogeneity, Sirius red, cornea, collagen, glycosamino-glycan, safranin O, human 81

Lacrimal system,
tears, dry eye, Schirmer test, topical anaesthesia, kinetic parameters, comparison of dry and normal eyes 419
tears, tear proteins, HPLC, human 893
tears, vitamin A, retinol, retinyl esters, retinyl palmitate, rabbit 1009

Lactoferrin,
tears, small tear volume, stimulated tears, tear proteins, sandwich ELISA, HPLC, assay interference 163

Laminin,
cornea, collagen, extracellular matrix, basement membrane, cornea, corneal epithelium, rabbit 293

Lens,
ageing rat lens, sex differences, enzymes:LDH, MDH, ALD, SDH, G-6-PDH, PK, PFK, HK 449
aqueous humour, vitreous, ascorbic acid, diet, guinea pig 681
cataract, anti-cataract drugs, natural history of cataracts, Scheimpflug Camera, reproducibility, human 955
cataract, membrane cholesterol, gap junctions, U 18666A, rat 1029
cataract, oxidative damage, ultraviolet radiation, hydrogen peroxide, hexokinase, tryptophan, rat, rabbit, bovine 257
cataract, photographic documentation, rabbit, human 223
cataract, pigmentation, glucocorticoid, corticosteroids, glucose, Maillard reaction, chick embryo 989
cataract/galactose cataract, galactosemic, freezable water/non-freezable water, rat 771
crystallins, fluorescence quenching, acrylamide, iodide, bovine 237
crystallins, γ crystallin, nuclear magnetic resonance, ionization, electrostatic/ring-current calculations, X-ray analysis, bovine 777
hydrogen peroxide, Ca-ATPase, oxidative damage, membrane transport and permeability, sodium-potassium ATPase, electrolytes, rabbit 969
lens conductance, cytoskeleton, membrane permeability and transport, fodrin, oxidative damage, rat 747
lens epithelium, cytoskeleton, actin, vimentin, filaments, immunogold-EM 705
lens opacity, Na-K-ATPase, ultraviolet light, swelling, dose-effect curves, sodium pump isozymes, rat 539
lens proteins size and shape, crystallins/gamma-crystallin, electron microscopy, bovine 25
lens proteins, ageing, crystallins/crystallin distributions, concentric layers, development, bovine 11
lens proteins, crystallins, genes, transcription, chicken 331
lens proteins, crystallins, beta-crystallins, ageing, development, polypeptides, human 353
lens proteins, crystallins:α_c-crystallin/α_m-crystallin, polydispersity, molecular weight, bovine 563
lens proteins, crystallins, electrophoretic analysis, amino acid analysis, camel, rabbit 871
lens proteins, crystallins, subunit structure, amino acid composition, charge heterogeneity, sequence homology, gibbon/deer/marmot 1017
lens proteins, crystallins, alpha crystallin, alpha neuroprotein, ageing, UV light, bovine 1113
lens proteins, cytoskeleton, proteolysis, ageing, extrinsic membrane proteins, antibodies, bovine 1255
lens proteins, EDTA, annexins, glycoconjugate, bovine 837
lens proteins, extrinsic membrane proteins, cytoskeleton, antibodies, bovine 1243
lens proteins, gamma-crystallins, structure, fluorescence spectroscopy, quenching, acrylamide, bovine 55
lens proteins, insoluble proteins, protein conformation, solid-surface fluorescence, fluorometry 61
lens proteins, lens epithelium, crystallins, β crystallin, glutathione−insulin transhydrogenase, rat 861
lens proteins, proteolysis, microsequencing/immunoblot, MIP26, cataract, selenite, rats 411
lens proteins, ubiquitin, red blood cell, bovine 831
lens proteins, UV radiation, photosensitization, chromophores, single oxygen, grey squirrel 531
lens proteins, γ-crystallin, photooxidation, hydrogen peroxide, fluorescence, circular dichroism, oxidative damage 571
lens-specific expression, lens proteins, intrinsic membrane protein, membranes, MP17, phosphorylation, calmodulin-binding, monoclonal antibodies 207
zonules, zonular proteins/antigens, fibres, elastic microfibrils, bovine 139

Lens epithelium,
cytoskeleton, actin, vimentin, filaments, polygonal arrays, immunogold-EM 705

Lens proteins,
crystallins, alpha crystallin, alpha neuroprotein, ageing, UV light, bovine 1113
crystallins, subunit structure, amino acid composition, charge heterogeneity, sequence homology, gibbon/deer/marmot 1017
fluorescence quenching, acrylamide, iodide, crystallins, tryptophan, ageing, human 403
lens epithelium, crystallins, β crystallin, glutathione−insulin transhydrogenase, rat 861
lens insoluble proteins, protein conformation, solid-surface fluorescence, fluorometry 61
lens, ageing, crystallins/crystallin distributions, concentric layers, development, bovine 11
lens, crystallins, beta-crystallins, ageing, development, polypeptides, human 353
lens, crystallins, electrophoretic analysis, amino acid analysis, camel, rabbit 871
lens, crystallins, genes, transcription, chicken 331
lens, crystallins:α_c-crystallin/α_m-crystallin, polydispersity, molecular weight, bovine 563
lens, cytoskeleton, proteolysis, ageing, extrinsic membrane proteins, antibodies, bovine 1255
lens, EDTA, annexins, glycoconjugate, bovine 837
lens, extrinsic membrane proteins, cytoskeleton, antibodies, bovine 1243
lens, gamma-crystallins, structure, fluorescence spectroscopy, quenching, acrylamide, bovine 55

lens, proteolysis, microsequencing/immunoblot, MIP26, cataract, selenite, rats 411
lens, ubiquitin, red blood cell, bovine 831
lens, UV radiation, photosensitization, chromophores, single oxygen, grey squirrel 531
lens, γ-crystallin, photooxidation, hydrogen peroxide, fluorescence, circular dichroism, oxidative damage 571
lens-specific expression, lens, intrinsic membrane protein, membranes, MP17, phosphorylation, calmodulin-binding, monoclonal antibodies 207
size and shape, lens, crystallins/gamma-crystallin, electron microscopy, bovine 25
Lens-specific expression,
lens proteins, lens, intrinsic membrane protein, membranes, MP17, phosphorylation, calmodulin-binding, monoclonal antibodies 207
Leukotrienes,
prostaglandins, arachidonic acid, blood aqueous barrier, cornea, herpes simplex virus, inflammation, rabbit 1131
Lid suture,
avian eye, myopia, blindness, formoguanamine, chick 69
Light damage,
phototoxicity, chlorpromazine, retina/retinal pigment epithelium 1
time course for light damage, retinal pigment epithelium, photochemical injury, morphology, defined parameters, rabbit 849
Lymphocyte proliferation assay,
interphotoreceptor retinoid-binding protein, uveitis, retinal S-antigen, human 393
Lypoxygenase inhibitors,
cyclo-oxygenase inhibitors, keratitis, cornea, corneal neovascularization/oedema, non-steroidal anti inflammatory drugs, leukocyte infiltration, rabbit 361
Lysosomes,
lysosomal enzymes, retinal pigment epithelium, cell culture, human 1097

Mast cell,
conjunctiva, anaphylaxis, desensitization, dinitrophenylated, *Ascaris suum*, rat 803
Melanin,
melanosomes, *tapetum lucidum*, hereditary tapetal degeneration, retina/retinal pigment epithelium, electron microscopy, uvea, dog 115
Membrane transport and permeability,
lens conductance, cytoskeleton, oxidative damage, fodrin, rat 747
lens, electrolytes, sodium-potassium ATPase, Ca-ATPase, oxidative damage, hydrogen peroxide, rabbit 969
membrane voltage, intracellular pH, K^+ conductance; Na^+/H^+ exchange, corneal epithelium, tissue culture 619
Membranes,
intrinsic membrane protein, lens, lens-specific expression, lens proteins, MP17, phosphorylation, calmodulin-binding, monoclonal antibodies 207
MIP26,
cataract, selenite, lens, lens proteins, proteolysis, microsequencing/immunoblot, rats 411
Mucus,
tears, tear prealbumin, serum albumin, structural association, crossed immunoelectrophoresis, column chromatography, human 427
Myopia,
lid suture, avian eye, blindness, formoguanamine, chick 69

Neopterin,
serum neopterin levels, interferon, uveitis, human 497
Non-steroidal anti-inflammatory drugs,
cornea, corneal neovascularization/oedema, keratitis, lypoxygenase inhibitors, cyclo-oxygenase inhibitors, leukocyte infiltration, rabbit 361
inflammation, aphakia, indomethacin, prostaglandin, iris-ciliary body, retina, rabbit 1105
inflammation, prostaglandins, lens, aqueous humour, endotoxin, flunixin, indomethacin 321
Norepinephrine,
bunazosin, diltiazem, prostaglandins, long posterior ciliary artery, blood supply, vascular sensitivity 457
ocular pharmacology, blood vessels, ophthalmic arteries, arterial perfusion method, periarterial electrical stimulation, vascular responsiveness, canine 607
Nuclear magnetic resonance,
ionization, electrostatic/ring-current calculations, X-ray analysis, lens, crystallins, γ crystallin, bovine 777
Ocular hypertension,
electroretinography, retinal ganglion cells, glaucoma, primary open-angle glaucoma, risk factors 201

Ocular irritation,
blood flow, intraocular pressure, blood aqueous barrier, CGRP, neurogenic/contralateral response, pupil diameter, rabbit 695
inflammation, keratouveitis, capsaicin, neurotoxin, neuropeptides, rat 1173
substance P. intraocular pressure, pupil diameter, blood aqueous barrier, iris-ciliary body, calcitonin gene-related polypeptide (CGRP), rat 761
Ocular pharmacokinetics,
ocular pharmacology, cefotaxime, cephalosporins, topical application, subconjunctival application, rabbit 1149
Oscillatory potentials,
body inversion, intraocular pressure, perfusion pressure, autoregulation, human 1221
Outflow facility,
glaucoma, trabecular meshwork, aqueous humour dynamics, organ culture, bovine 799
outflow resistance washout, anterior chamber perfusion, aqueous humour dynamics, trabecular meshwork, *Macaca fascicularis*:monkey 721
Oxidative damage,
antioxidants, oxygen free radicals, glutathione peroxidase, distribution in ocular tissue, immunohistochemistry, rat 1023
cataract, lens, ultraviolet radiation, hydrogen peroxide, hexokinase, tryptophan, rat, rabbit, bovine 257
hydrogen peroxide, photooxidation, lens, lens proteins, γ-crystallin, fluorescence, circular dichroism 571
hydrogen peroxide, sodium-potassium ATPase, electrolytes, Ca-ATPase, membrane transport and permeability, lens, rabbit 969
inflammation, hydrogen peroxide, cytochemistry, electron microscopy, rat 931
membrane permeability and transport, lens conductance, cytoskeleton, fodrin, rat 747
oxygen, superoxide dismutase (SOD), retinal pigment epithelium (RPE) 961

pH,
intracellular pH, corneal epithelium, membrane transcript/permeability, membrane voltage, K^+ conductance; Na^+/H^+ exchange, tissue culture 619
Phosphodiesterase inhibitor,
prostaglandins, inflammation, blood-aqueous barrier, uveitis, 3-isobutyl-methyl-xanthine, leukocyte, rabbit 557
Phototoxicity,
light damage, chlorpromazine, retina/retinal pigment epithelium 1
Platelet activating factor,
iris-ciliary body, specific binding, rabbit 1063
Polyphosphoinositides,
GTP, corneal epithelium, norepinephrine, 5-hydroxytryptamine, sodium fluoride, bovine 487
Preservatives,
anaesthetics, cornea, corneal epithelium, epithelial permeability, fluorophotometry, human 947
thimerosal, merthiolate, mercury, contact lenses, cell-mediated immunity, antibodies, hypersensitivity, rabbit 341
Prostaglandins,
indomethacin, non-steroidal anti-inflammatory drugs, iris-ciliary body, retina, inflammation, aphakia, rabbit 1105
inflammation, non steroidal anti-inflammatory drugs, lens, aqueous humour, endotoxin, flunixin, indomethacin 321
leukotrienes, arachidonic acid, blood aqueous barrier, cornea, herpes simplex virus, inflammation, rabbit 1131

retina, panretinal coagulation, retinal microvascular endothelial cells, vitreous, proliferation, miniature pig 465
uveitis, blood-aqueous barrier, phosphodiesterase inhibitor, inflammation, 3-isobutyl-methyl-xanthine, leukocyte, rabbit 557
vascular sensitivity, long posterior ciliary artery, blood supply, norepinephrine, bunazosin, diltiazem 457

Pseudoexfoliation syndrome,
elastin, tropoelastin, zonules, immunoelectron microscopy, human 1163

Pupil diameter,
intraocular pressure, ocular irritation, blood aqueous barrier, iris-ciliary body, substance P, calcitonin gene-related polypeptide (CGRP), rat 761

Retina,
ciliary processes, cornea, conjunctiva, choroid, antigens, HLA DR/HLA DQ, human 903
epiretinal membranes, retinal detachment, fibroblasts, inflammation, endotoxin, glial cells, cell proliferation 877
glaucoma, ocular hypertension, image analysis, computerized densitometry, red-free photography, visual field 789
iris-ciliary body, inflammation, aphakia, non-steroidal anti-inflammatory drugs, indomethacin, prostaglandin, rabbit 1105
panretinal coagulation, retinal microvascular endothelial cells, vitreous, proliferation, prostaglandins, miniature pig 465
retinal degeneration, interphoreceptor matrix, *rds* gene, chimaera, mouse 1183
retinal detachment, vitreous fibrosis/vitreous membrane, monocytes/lymphocytes, chronic pars planitis, rabbit 1191
retinal pigment epithelium, chlorpromazine, phototoxicity, light damage 1
retinal pigment epithelium, *tapetum lucidum*, hereditary tapetal degeneration, zinc, electroretinogram, electron microscopy, melamin, beagle 103
retinal pigment epithelium, *tapetum lucidum*, hereditary tapetal degeneration, melanin, melanosomes, electron microscopy, uvea, dog 115
retinal pigment epithelium, canthaxanthine, carotenoids, phagolysosomes, cat 687
retinal pigment epithelium, time course for light damage, defined parameters, photochemical injury, morphology, rabbit 849
retinopathy, proliferative vitreoretinopathy, BCNU, carmustine, silicone oil, rabbit 1199
rhodopsin, radioimmunoassay, immunology, cross-reactivity, purification, human 1125
rhodopsin, rod outer segments, development, biogenesis, radioimmunoassay, embryonic chick 503

Retinal degeneration,
interphoreceptor matrix, *rds* gene, chimaera, mouse 1183

Retinal detachment,
epiretinal membranes, retina, fibroblasts, inflammation, endotoxin, glial cells, cell proliferation 877

Retinal ganglion cells,
ocular hypertension, electroretinography, glaucoma, primary open-angle glaucoma, risk factors 201

Retinal pigment epithelium,
choroid, ascorbic acid, ascorbate peroxidase 675
lysosomes, lysosomal enzymes, cell culture, human 1097
oxidative damage, superoxide dismutase (SOD), retinal pigment epithelium (RPE) 961
retina, canthaxanthine, carotenoids, phagolysosomes, cat 687
retina, chlorpromazine, phototoxicity, light damage 1
retina, *tapetum lucidum*, hereditary tapetal degeneration, zinc, electroretinogram, electron microscopy, melamin, beagle 103
retina, *tapetum lucidum*, hereditary tapetal degeneration, melanin, melanosomes, electron microscopy, uvea, dog 115
time course for light damage, defined parameters, photochemical injury, morphology, rabbit 849

Retinal S-antigen,
anterior chamber, immune deviation, experimental autoimmune uveitis, uveitis, inflammation, soluble antigens, Lewis rats 627
anti-Ia, MHC class II antigens, RPE, experimental autoimmune uveitis, autoimmune disease, inflammation, rat 809
experimental autoimmune uveitis, epitopes, immunoblotting, T_h cells, antibody, cyanogen bromide, rats 181
experimental autoimmune uveoretinitis, uveitis, cyanogen bromide, immunoblotting, rats 191
experimental autoimmune uveitis, peptide M, synthetic peptides, T-cell response, guinea pig 87
monoclonal antibodies, experimental autoimmune uveitis, peptides, human 1077
monoclonal antibodies, immunoblots, peptides, epitopes, experimental autoimmune uveitis, autoimmunity, bovine 1137
monoclonal antibodies, T cells/B cells, MHC class II antigens, experimental autoimmune uveitis, inflammation, guinea pig 1231
uveitis, lymphocyte proliferation assay, interphotoreceptor retinoid-binding protein, human 393

Retinitis,
herpes simplex virus, HSV-I, anterior chamber-associated immune deviation, genetics, resistance, mouse 125

Retinol,
vitamin A, supplementation, preschool children, tears/tear fluid, plasma 43

Retinopathy,
proliferative vitreoretinopathy, retina, BCNU, carmustine, silicone oil, rabbit 1199

Rhodopsin,
retina, radioimmunoassay, immunology, cross-reactivity, purification, human 1125
rod outer segments, retina, development, biogenesis, radioimmunoassay, embryonic chick 503

Rod outer segments,
rhodopsin, retina, development, biogenesis, radioimmunoassay, embryonic chick 503

Scheimpflug Camera,
reproducibility, lens,.cataract, anti-cataract drugs, natural history of cataracts, human 955

Schirmer test,
lacrimation, tears, dry eye, topical anaesthesia, kinetic parameters, comparison of dry and normal eyes 419

Selenite,
cataract, M[illegible]26, lens, lens proteins, proteolysis, microsequencing/immunoblot, rats 411

Sensory nerves,
cornea, herpes simplex virus, HSV-1, geographic lesion, rabbit trigeminal nerve 147

Sodium potassium ATPase,
Ca-ATPase, electrolytes, lens, membrane transport and permeability, hydrogen peroxide, oxidative damage, rabbit 969
ultraviolet light, rat lens, lens opacity, swelling, dose-effect curves, sodium pump isozymes 539

Soft drugs,
site-specific chemical delivery system, β-adrenergic blockers, glaucoma, antiglaucoma agents, intraocular pressure, rabbit 369

Solid-surface fluorescence,
fluorometry, lens insoluble proteins, protein conformation 61

Substance P,
ocular irritation, calcitonin gene-related polypeptide (CGRP), intraocular pressure, pupil diameter, blood aqueous barrier, iris-ciliary body, rat 761

Superoxide dismutase (SOD),
oxidative damage, oxygen, retinal pigment epithelium (RPE) 961

***Tapetum lucidum*,**
hereditary tapetal degeneration, zinc, electroretinogram, retinal pigment epithelium, electron microscopy, melamin, beagle 103
hereditary tapetal degeneration, retina/retinal pigment epithelium, melanin, melanosomes, electron microscopy, uvea, dog 115

Tears,
herpes simplex virus, immunoglobulin A, cornea, infection, antibody, ELISA, rabbit 313
IgG, secretory antibody, immunology, immune responses, rats 471
lacrimal gland, vitamin A, retinol, retinyl esters, retinyl palmitate, rabbit 1009

lacrimation, dry eye, Schirmer test, topical anaesthesia, kinetic parameters, comparison of dry and normal eyes 419
small tear volume, stimulated tears, tear proteins, lactoferrin, sandwich ELISA, HPLC, assay interference 163
tear fluid, retinol, vitamin A, supplementation, preschool children, plasma 43
tear mixing, topographical, corneal oedema, contact lens, hydrogel lens, lactic acid, human 601
tear prealbumin, serum albumin, mucus, structural association, crossed immunoelectrophoresis, column chromatography, human 427
tear proteins, lacrimal system, HPLC, human 893
tear turnover rate, fluorescein/fluorophotometry, Schirmer, human 995

Temperature,
bolometry, inflammation, conjunctivitus, conjunctiva, bulbar conjunctiva, conjunctival hyperaemia 615

Thimerosal,
preservatives, merthiolate, mercury, contact lenses, antibodies, cell-mediated immunity, hypersensitivity, rabbit 341

Timolol,
prodrug, intraocular pressure, glaucoma, receptors, heart rate, rabbit 755

Trabecular meshwork,
anterior chamber perfusion, aqueous humour dynamics, outflow facility, outflow resistance washout, *Macaca fascicularis*:monkey 721
cyclic AMP, agonists, monkey 75
glaucoma, aqueous humour, aqueous outflow, phagocytosis, immunofluorescence, cynomolgus monkey 445
outflow facility, aqueous humour dynamics, glaucoma, organ culture, bovine 799

Trigeminal ganglion,
keratitis, herpes simplex virus, latency, reactivation, mouse 1155

Tumour,
intraocular, tumour necrosis factor/rejection, immunology, cytoxic T lymphocytes, antibody, complement, mouse 515

Ubiquitin,
lens, lens proteins, red blood cell, bovine 831

UV radiation,
ageing, lens proteins, crystallins, alpha crystallin, alpha neuroprotein, bovine 1113
corneal endothelium, polymegethism, pleomorphism, solar radiation 157
lens proteins, chromophores, photosensitization, single oxygen, grey squirrel 531
Na-K-ATPase, rat lens, lens opacity, swelling, dose-effect curves, sodium pump isozymes 539
oxidative damage, hydrogen peroxide, lens, cataract, hexokinase, tryptophan, rat, rabbit, bovine 257

Uveitis,
blood-aqueous barrier, prostaglandins, phosphodiesterase inhibitor, inflammation, 3-isobutyl-methyl-xanthine, leukocyte, rabbit 557
experimental autoimmune uveitis, retinal S-antigen, peptide M, synthetic peptides, T-cell response, guinea pig 87
experimental autoimmune uveitis, S-antigen, antibody, immunoblotting, T_h cells, epitopes, cyanogen bromide, rats 181
experimental autoimmune uveoretinitis, S-antigen, cyanogen bromide, immunoblotting, rats 191
experimental autoimmune uveitis, inflammation, soluble antigens, retinal S-antigen, anerior chamber, immune deviation, Lewis rats 627
experimental autoimmune uveoretinitis/pinealitis, interphotoreceptor retinoid-binding protein, synthetic peptides, immunopathogenic epitopes, amphipathicity, Lewis rats 727
experimental autoimmune uveitis, S-antigen, monoclonal antibodies, peptides, human 1077
retinal S-antigen, lymphocyte proliferation assay, interphotoreceptor retinoid-binding protein, human 393
serum neopterin levels, interferon, human 497

Vascular sensitivity,
long posterior ciliary artery, blood supply, prostaglandins, norepinephrine, bunazosin, diltiazem 457
ophthalmic arteries, arterial perfusion method, periarterial electrical stimulation, blood vessels, norepinephrine, ocular p, canine 607

Visual acuity,
contact lenses/soft contact lenses, contrast sensitivity, luminance, spectacles 635

Visual evoked potential (VEP),
asymmetrical contrast, human 265

Visual field,
image analysis, computerized densitometry, red-free photography, retina, glaucoma, ocular hypertension 789

Vitamin A,
retinol, retinyl esters, retinyl palmitate, lacrimal gland, tears, rabbit 1009
supplementation, preschool children, tears/tear fluid, retinol, plasma 43

Vitreous,
aorta, elastase inhibitors, bovine 95
aqueous humour, lens, ascorbic acid, diet, guinea pig 681
liquefaction, collagen fibrils, macrophages, ferrous ions, transmission electron microscopy, rabbit 655
subretinal vitreous, pathology of drusen, neural pigment epithelium, Bruch's membrane, rabbit 581
vitreous fibrosis/vitreous membrane, retina, retinal detachment, monocytes/lymphocytes, chronic pars planitis, rabbit 1191

Zinc,
tapetum lucidum, hereditary tapetal degeneration, electroretinogram, retinal pigment epithelium, electron microscopy, melanin, beagle 103

Zonules,
pseudoexfoliation syndrome, elastin, tropoelastin, immunoelectron microscopy, human 1163
zonular proteins/antigens, fibres, elastic microfibrils, lens, bovine 139
